

Mohamed Laraiche

CHICHAOUA, MOROCCO • +212663733223 • laraichemohamed@gmail.com • <https://molaraiiche.com/>

Frontend Developer specialized in building fast, customized websites using the latest technologies. Focused on solving problems and delivering high-quality, well-structured code. A self-motivated developer with the ability to work independently while also excelling in team collaborations

Projects

Oreen – Car Rental Management Web App

Tech Stack: Next.js, Tailwind CSS, TypeScript, Express.js, MongoDB.

- Built a high-performance car rental platform for agency owners to efficiently manage their services.
- Developed a booking system allowing customers to request cars while owners retain full control over approvals.
- Engineered a testimonial & ranking system to showcase verified customer reviews for marketing credibility.
- Optimized the landing page to achieve Google Lighthouse scores of 100 (Performance, SEO, Best Practices) and 90 (Accessibility).

• **Demo:** <https://oreen.molaraiiche.com>

Beesound – E-Commerce Web Application

Tech Stack: Next.js, Tailwind CSS, TypeScript, Firebase (Storage & Auth), Stripe.

- Developed a fully functional, high-performance e-commerce platform with seamless payment integration via Stripe.
- Built an admin dashboard to efficiently manage products, ensuring smooth inventory control.
- Implemented search functionality and a cart system that allows users to add, remove, and purchase products easily.
- Optimized the website for speed and SEO, achieving Google Lighthouse scores of 100 (Performance), 90 (Accessibility), 100 (Best Practices), and 91 (SEO).
